SUMMER INTERNSHIP

The Cox Science Center Education Department is looking for a summer intern for 2024. This position would include weekend and occasional weekday events. This intern assists in the development and delivery of creative, hands-on STEM activities, workshops, and live science demonstrations.

Incoming college freshmen and seniors in high school with a strong focus on STEM education are the preferred candidate, but juniors with a passion for STEM education are also acceptable. Must have excellent oral communication skills and preferably some experience working with children. Theater experience or formal public speaking courses is a plus.

Please send resumes to Natasha Rocha at nrocha@coxsciencecenter.org with "Summer Internship" in the subject line to apply.
